Amendment Dated: December 30, 2003
Reply to Office Action of September 12, 2003

has a filing date of May 25, 1999, which is its effective date as a reference under 35 USC § 102(e). The present application claims the benefit of Swedish Patent Application 9803851-6, filed November 10, 1998, a date prior to the effective date of the Seiffert patent. To establish that Applicant is entitled to the benefit of the filing date, a certified copy of the priority document was filed on December 6, 1999. Applicants now submit a verified translation of this priority document. Without making a word-for-word comparison, this translation appears to be the same as the application as filed. Thus, Applicants submit that the Seiffert reference is not prior art with respect to this application, and that the rejection should therefore be withdrawn.

Applicants enclose herewith a Supplemental Information Disclosure Statement together with the fee for submission after the filing the disclosure after the first official action. Copies of the documents listed are enclosed for the Examiner's convenience. Entry of the Information Disclosure Statement and consideration of the references are requested.

Respectfully Submitted,

A handwritten signature in cursive script, appearing to read "Marina T. Larson", is written over a horizontal line.
